

768 x 1004 px in your art
software

Create full-page artwork on canvases sized 2048 x 1496 px in your art software.

Position artwork correctly on this page using the metrics panel (look for the icon that looks like a little diagonal ruler.)

Type 1024 into the 'width' field. The height will readjust automatically.

Position X and Y at 0,0.

Add your text by clicking on 'Text Box' above.

You may need to right click on your image and 'Send to back'.
